Notes:

All panel members were on 2012 selection panels and provide a mix of technical expertise, team management experience and sport representation.

The panels include some members who are involved in coaching. However, any perceived conflict of interest is balanced by a strong contribution to the overall work of the panel and, in the case a selector has a conflict of interest regarding an athlete, the chair or technical committee member ensures that interest is declared and the panel member is not involved in a decision regarding that athlete.

Ratified by Australian Canoeing Board on 21st December 2012
